- 3 For Lab results: If you see a blank page, this generally means your lab results have not yet been returned from the lab. (TIP: If you recently completed a lab study and are logging in for results, please allow 3-5 business days from the date of your visit for your lab results to be returned and reviewed by an Exer Provider before they are posted. If it has been at least 5 business days and you do not see your results posted, please reach out to us at any center for assistance.)
